

## Voice Assistant Scenarios

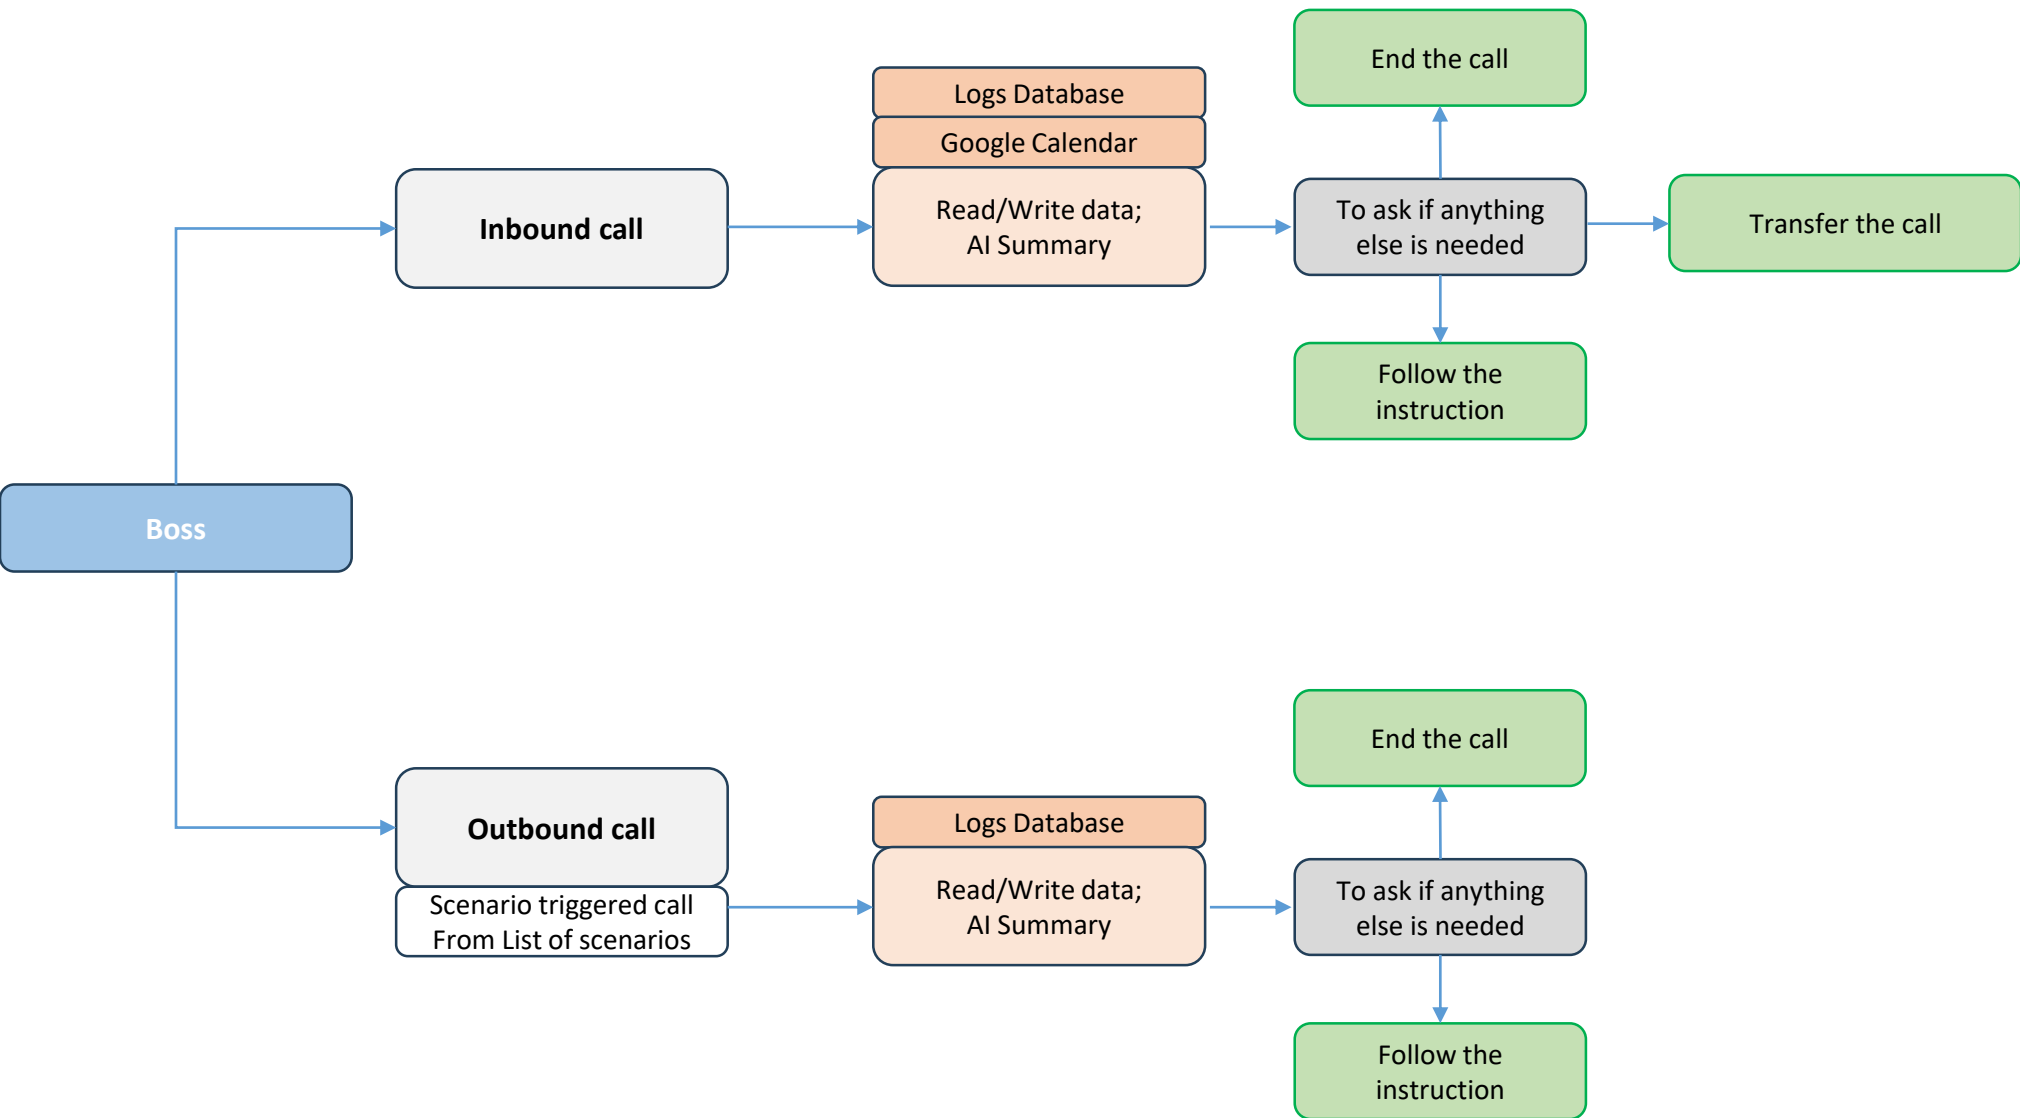

**inbound call**

## Where do we get the data for AI

### Care documentation / Memos

1. Employee after the tour calls the bot and reports the findings in the field (making memo)
2. Bot sort and add the info into the excel(s)

### Client Summary

1. Contact from phonebook calls – bot answers with personal scripts
2. Scripts should include personal info, like question feelings, plans, stuff at home, other instructions.

Separate DB to be created by the Team
